

Secure and Protect Your Trailer Wire Harness from:
DIRT | DEBRIS | CORROSION | ABRASION | IMPACT

**CONNECT
TO PROTECT**

Trailer Harness Plug Protectors

Secures the plug to the trailer, protecting it from impact and abrasion. Cover prevents moisture wicking, debris accumulation and corrosion.

7-ROUND ACP7B

*Available in bulk, polypack,
and colorful retail packaging*

**10-year
FIELD TESTED**

4/5-FLAT ACP5B

Connect-to-Protect

Designed for quick and easy installation at trailer front, **Connect-to-Protect** caps effectively seal trailer connectors against damage, shielding the plug, terminals and wiring from moisture, dust, abrasion and corrosion.

Features:

- **Quick and easy surface mount installation**
- **Molded from rugged, pliable material that won't become brittle in extreme temperatures**
- **Models available for all standard trailer connectors - 4-flat, 5-flat, and 7-round**
